## About Medics4sewa Project

As villagers do not get proper guidance about a healthy way of life from their childhood, they suffer from many diseases.

Rural India struggles to obtain the basic healthcare that is much needed for the individual members to live a long and healthier life in rural India.

There is a high incidence of disease, facial deformity and oral cancer. Health education is virtually non-existent. Infant and maternal mortality is amongst the highest in India.

**Medics4Sewa** will provide a variety of healthcare services to the families of Chitrakoot and the surrounding villages.

### About Chitrakoot

Chitrakoot is a small town situated on the Mandakini River, approximately 500 miles South East of Delhi.

It is on the border between Madhya Pradesh and Uttar Pradesh, two of the poorest and most deprived areas of rural India.

There are 500 surrounding villages with a total population of over one million, all struggling with poverty and an almost total absence of health care.

**Sewa UK has set out to make a difference by bridging this gap!**

Chitrakoot means 'hill of many wonders', it is a place of religious, cultural, historical and archaeological importance.
